

**Sloughhouse Resource Conservation District
Board of Directors Meeting**

Agenda Date: March 17, 2026
Agenda Item #: Report B
Agenda Item Subject: Cosumnes Stream Gage Project

To: SRCD Board of Directors
From: SRCD Staff

Background

Final site was approved by Amador BOS, currently awaiting the final approval for DWR.

Flowwest has initiated permits with CDFW – Lake and Streambed Alteration Agreements, US Army Corps of Engineers – Nationwide Permit 5, Regional Water Quality Control Board – Notice of Intent and has initiated Section 106 tribal engagement.

We are receiving significant tribal engagement on this project and are currently evaluating potential budget impacts based on the unanticipated tribal engagement that was not originally scoped. We have several request for tribal monitors at installation. Currently awaiting final cultural report to be released.

Discussion:

- Any questions from Board members are welcome

Recommendations

- None
